

This week on the problem set you will get more practice applying and understanding Stokes' theorem, and some practice with the divergence theorem.

*Numbers in parentheses indicate the question has been taken from the textbook:

J. Rogawski, C. Adams, *Calculus, Multivariable*, 3rd Ed., W. H. Freeman & Company,

and refer to the section and question number in the textbook.

1. (Section 18.2) 18, 21, 23, 24, 25, 27, 32*, 36*
2. (Section 18.3) 5, 9, 11, 14, 15, 17, 20, 21, 23, 29.

*The questions marked with an asterisk are more difficult or are of a form that would not appear on an exam. Nonetheless they are worth thinking about as they often test understanding at a deeper conceptual level.
